Tim Hale SC, representing NPRAG, will continue to argue the case for the community that Infrastructure NSW failed to consider any alternative site in the Environment Impact Statement for the Parramatta Powerhouse.

Meanwhile an injunction halting any works taking place on heritage listed Willow Grove will continue until the final judgment is received from the Supreme Court. The community remain a 24/7 vigil on the entrances to the Victorian Italianate villa's grounds, in fear of any works being carried out regardless of court orders.
