Macarthur Street road closure for awning removal No images? [Click here](#)

The Powerhouse Museum Ultimo revitalisation will provide world-class exhibitions spaces focused on applied arts and sciences and a major new public domain. Early works by DECC will begin with the removal of an awning on Macarthur Street.

Street closure - Macarthur Street awning removal

On **Saturday 1 February 2025, between approximately 7am and 1pm** (weather permitting), there will be a temporary street closure for the removal of the awning located above the loading dock on Macarthur Street. This awning connects the Powerhouse Museum Ultimo to the Harwood Building. Our contractor (DECC) will **temporarily close Macarthur Street** to all street traffic (including pedestrians, bikes and vehicles) between Harris Street and The Goods Line. All traffic will be directed along Harris Street down towards Mary Ann Street.

This temporary closure is required as an added safety precaution and will involve the use of elevated work platforms and mobile cranes, both within and outside the site boundary.

Health and safety

There is no expectation for excessive noise during this time. Strict environmental and planning controls are in place to manage noise, dust and vibration.

Traffic and pedestrian management

Traffic controls will be in place to manage the temporary closure of Macarthur Street. Please refer to the image below for street closure location along Macarthur Street.

Construction hours

Work will take place from **7am to 5pm on Saturday 1 February 2025**, to complete the awning removal works.
