Subject: Powerhouse Museum Ultimo | Work notification | August 2025

**Temporary footpath and lane closures as part of early works.**

The Powerhouse Museum Ultimo Revitalisation will provide world-class exhibition spaces focused on applied arts and sciences and a major new public domain. Early works by DECC are underway and will require temporary footpath and lane closures for awning removal and forecourt demolition.

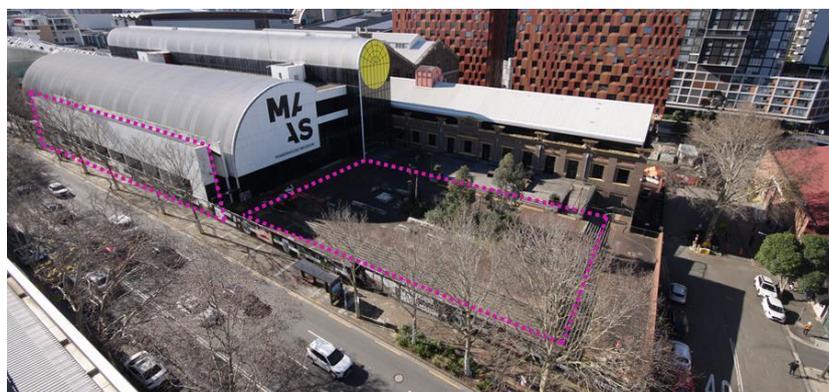

## Temporary footpath and lane closures

From **Monday 1 September 2025 for 4 weeks** (weather permitting), the northern footpath on Macarthur Street between Harris Street and The Goods Line will be temporarily closed, as well as the adjacent off-street parking spaces.

From **Monday 1 September 2025 for 8 weeks** (weather permitting), the eastern footpath on Harris Street between William Henry and Macarthur Streets will also be temporarily closed.

Additionally, the first southbound lane on Harris Street between William Henry and Macarthur Streets will be closed from **Monday 21 September for 1 week** (weather permitting).

These closures are to ensure pedestrian and vehicle safety while the Harris Street forecourt is demolished and the awning attached to the façade of the Wran building of the Powerhouse Museum in Ultimo is removed (shown below).

All pedestrian traffic will be redirected to use the footpath on the opposite sides of Macarthur and Harris Streets.

Vehicle traffic on Macarthur Street will not be impacted. Vehicle traffic on Harris Street will be required to use the adjacent 2 southbound lanes.

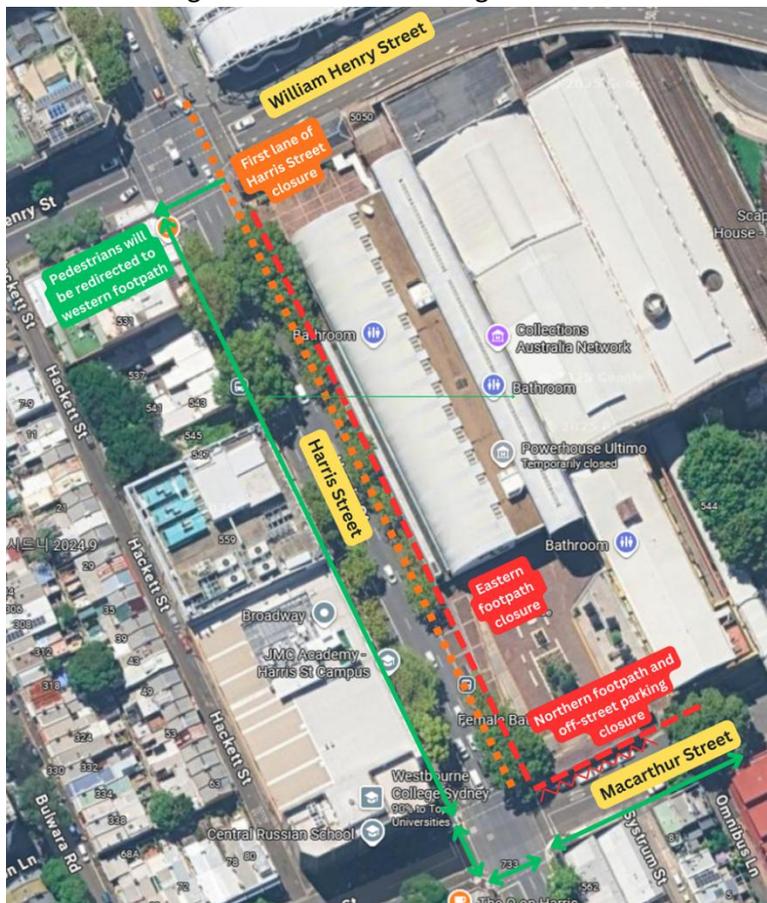

The bus stop on the corner of Harris and Macarthur Street will remain accessible and operational throughout this period of works.

## Health and safety

There is no expectation for excessive noise during this period. Strict environmental and planning controls are in place to manage noise, dust and vibration.

## Traffic and pedestrian management

Pedestrian and traffic management controls will be in place to manage the temporary closure of the Macarthur and Harris Street footpaths, and first lane of southbound traffic on Harris Street. Please refer to the image below for a visual diagram.
