Message

Dear Planning Department,

I am Writing to Express my continued objection to this project.

The Powerhouse Museum and The Wran Building are an important part of Sydney's Built history and the Powerhouse museum as it was is an important part of the lives of many Residents of Greater Sydney and NSW. There is absolutely no reason to Demolish the Wran Building. there is also no commitment to permanent exhibitions when the museum reopens, No Transport, Space, Experimentations , Steam Revolution exhibitions means it is not the Powerhouse Museum
