## Powerhouse Museum Ultimo | Works notification | December 2025

Footpath closures on Harris and Macarthur Streets No images? [Click here](#)

The Powerhouse Museum Ultimo revitalisation will provide world-class exhibitions spaces focused on applied arts and sciences and a major new public domain. Early works by DECC will expand project hoarding to include footpaths around the museum on Harris and Macarthur Streets.

### Temporary footpath closures

From **Monday 5 January 2026, for the duration of the project**, the following pedestrian footpaths around the museum will be temporarily closed:

- **Eastern footpath on Harris Street** between William Henry and Macarthur Streets; and
- **Northern footpath on Macarthur Street** between Harris Street and The Goods Line; including the adjacent off-street parking.

These temporary closures are required to expand the project hoarding to allow greater access to the Harris Street forecourt and eventually the new building.

All pedestrian traffic will be redirected to use the footpath on the opposite sides of Harris and Macarthur Streets.

The **bus stop** on the corner of Harris and Macarthur Streets has already been temporarily closed for the duration of the project. There is an alternative bus stop in front of the Ian Thorpe Aquatic Centre on Harris Street.

#### Health and safety

There is no expectation for excessive noise during this period. Strict environmental and planning controls are in place to manage noise, dust and vibration.

#### Traffic and pedestrian management

Pedestrian management controls will be in place to manage the temporary footpath closures. Refer to the image above.
